

Kaveri Travels – Website Overview

Overview

Kaveri Travels is an online bus ticket booking website that allows users to register, search for buses, and book tickets easily.

The website provides a simple and user-friendly interface to make the booking process quick and convenient.

It also includes an admin section to manage users, bookings, and bus schedules.

Main Functionality

- User registration and login system
 - Bus search based on source, destination, and date
 - Online ticket booking and seat selection
 - Option to view, print, or cancel tickets
 - Admin panel for managing bookings, buses, and users
 - Responsive design for smooth access on all devices
-

Modules

1. **User Module** – Handles user registration, login, and profile details.
 2. **Search Module** – Allows users to find buses using travel information.
 3. **Booking Module** – Manages ticket booking, seat selection, and ticket generation.
 4. **Admin Module** – Used by admin to manage buses, users, and bookings.
 5. **Database Module** – Stores all system data like users, routes, and bookings.
-

Technologies Used

- **Frontend:** HTML, CSS, JavaScript
 - **Backend:** Node.js, Express.js
 - **Database:** MySQL
-

Expected Outcome

- Easy and fast online ticket booking experience
- Real-time data updates for buses and bookings
- Efficient management of users and schedules
- Better user experience through a modern design
